

FERRY SCHEDULES

The Institute of Accelerating Systems and Applications (IASA) would like to inform the participants of EINN that it does not undertake arrangements or bookings for their travel to Milos Island. It is also not responsible for any changes on the boat schedules. Online reservations are available by some ferry companies (see end of page) or in the following websites:

1. www.greekferries.gr
2. www.24hours.gr/en
3. www.milostravel.gr (this travel agency is located in Milos island and participants may collect their return ticket from the local office if they wish).

We would also like to suggest that participants book two one-way tickets instead of one round ticket, as some ferry companies may treat both legs of the trip as a single ticket and charge extra for both in case of changes in either leg.

Please find below the timetables for all ferry companies, to and from Milos Island.

PIRAEUS PORT → MILOS ISLAND
